INTRODUCTION

We are pleased to introduce our self as a complete solution provider in the field of electrical, instrumentation and industrial automation through automated machine/ equipment solution for various industries.

COMMITMENT: Our approach focuses on new way of business, thereby combining IT innovations and adoption of new technologies while leveraging an organization's current system and process. Our team is committed to provide Solutions and Services with:

- Quality
- Technology
- Innovation
- Technical Support & Services

Quality: Our main emphasis is to deliver best quality in every project we undertake. With our time-tested business methodology and structured solution building approach, we ensure to maintain our business standards.

Our Certification includes globally accepted **Quality Management ISO 9001- 2015**, for Quality Management System.

Technology, Innovation & Support:

Technology leadership is the most successful strategy to challenge competitors and consolidate our position since business and technology work hand in hand.

Unity Automation Pvt Ltd, today, is a new generation framework of technology innovators to accelerate growth. In each project, we emphasize on innovation. Our structured team works with a methodology and knowledge to innovate and deliver excellent services and after sales services. On the support side, we provide Team leads, Senior, and Junior Technical support personnel.

VISION

To build upon a reputation of being one of the most innovative Solution and Service provider. We believe in doing our work in the most efficient way with robust and structured methodology, with gradual evolution from hard-work to smart- work culture, at client's end also.

MISSION

To produce excellent services in the field of Solution, Services and Consultancy with maximum efforts driven towards customer satisfaction.

OUR AIM

To produce excellent services in the field of Solution, Services and Consultancy with maximum efforts driven towards customer satisfaction.

- We operate with complete focus to Maximize customer satisfaction.
- Develop and encourage an environment of mutual respect within company and extending it beyond to clients.
- Encourage commitment and personal learning of workforce.

We are proud to have built our organization on the strong pillars of integrity, honesty, and self-respect.

SPRING MANUFACTURING INDUSRY

AUTOMOTIVE INDUSTRY

HOME APPLIANCE INDUSRY

LPG BOTTLING PLANT

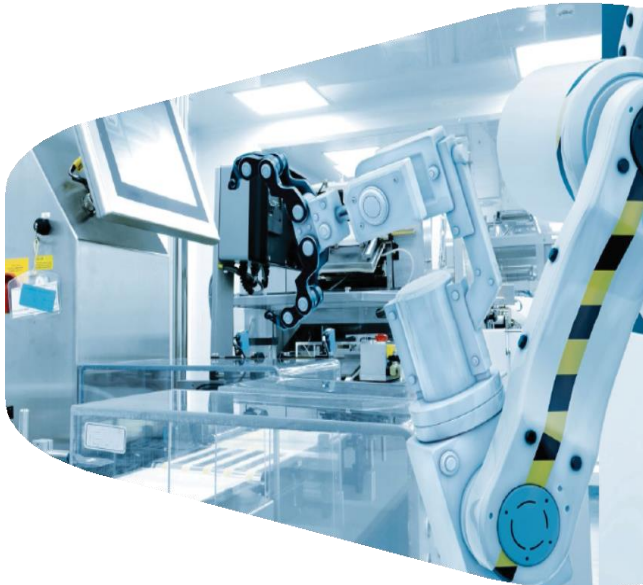

POWER TRANSFORMER INDUSTRY

PRODUCTS. APPLICATIONS. ENGINEERING.
CUTTING EDGE SOLUTIONS

Unity Industrial Automation's range of solutions reflects mission and vision of the company: design, develop and manufacture products, applications and engineering solutions to satisfy the need for technological innovation, flexibility and competitiveness of the market.

PRODUCTS

Technological components for industrial automation.

PAC - PROGRAMMABLE AUTOMATION CONTROLLER

Modular controllers for the management of industrial machines and processes.

HMI - HUMAN MACHINE INTERFACE

User interfaces for smart information management.

BUS-BAR OR INDUSTRIAL TROLLEY DUCT

Complete installation of Trolley duct, Current collector in the industrial environment.

SOFTWARE

A complete range to support every need for control, management and interface.

APPLICATIONS

Hardware and software solutions for specific user applications.

REMOTE MONITORING & ASSISTANCE

Control systems dedicated to data collection and remote, monitoring, control, diagnostic for plant and machinery.

MACHINE CONTROL AND PRODUCTION

Application for the control of machines and manufacturing processes, to monitor and verify quality and system variables.

MOTION & ROBOTICS

Solutions for motion control, cyclic synchronization of axes and management of complex movements.

DG Automation, Synchronization & Load Management

Systems for the control and the optimization of the energy consumption.

ENGINEERING

Services for engineering projects.

20 years of experience in the automation, energy, oil & gas and water treatment sectors enable Unity Industrial Automation to present itself as complete and perfect partner for the development of industrial engineering and process projects. Systems are characterized by their high performance, thanks to an approach that is fully oriented to achieve tailored solutions to specific needs.

For the best results in terms of quality and customer satisfaction, Unity Industrial Automation follows an operative scheme that is widely experienced and successful, from the study to the implementation, with a constant technical support.

OUR BEST SERVICES & PRODUCTS

01

Process Automation and Special Purpose Machines

02

LPG and Petroleum Industries

03

Home Appliance Industries

04

Automotive Industries

05

Power Transformer Industries

06

Spring Manufacturing Industries

07

Other Industries

OUR CLIENTELE

Member of Frencken Group Limited

And many more....
